Easter Faith Convention 2026

The resurrection of Christ is the greatest event in history because Christ did not only rise from the dead, we were raised up together with Him through the mystery of redemption and made to sit together with Him in heavenly places far above all principality, and power, and might, and dominion. This is what makes resurrection the secret behind the authority of the redeemed. Therefore, by the resurrection power of Christ, it shall be said of everyone in this convention **'why seek ye the living among the dead'** as in the following testimony.

MISSING KIDNEY RESTORED!

'In March 2025, I had pain in my stomach, so I went to the hospital and was told to go for a scan. I did, and it showed I only have one kidney, which is on my left side, and it was enlarged. While I rejected the medical verdict, I told the doctor my kidneys were complete. So, I returned home to pray to God. On 18th April, during the Easter Faith Convention, while Bishop David Oyedepo made declarations, he said that every dead organ would come alive, and I received and believed it with faith. After the service, I went home, brought out the negative result, and told God to honour the words of His servant in my life. Lo and behold, on the 19th, I went for another scan, and it showed that both kidneys were intact. I return all the glory to God!' — *Helen G. E.*
